OBJECTIVE

- A recent graduate in Computer Science with comprehensive knowledge in both front-end (HTML, CSS, JavaScript, React) and back-end (Java, SQL, Spring Boot) technologies. Looking for a role as a Full-Stack Developer to integrate my diverse skill set and contribute to innovative full-stack solutions.

TRAINING

- **Java Full-Stack Development**: Completed training at J-Spider.

CORE JAVA SKILLS

- Proficient in Class Members (Variables, Methods, Constructor)
- Experienced with Static and Non-Static Concepts
- Skilled in Method Overloading and Method Overriding
- Strong understanding of OOP principles: Inheritance, Polymorphism, Encapsulation, and Abstraction
- Good knowledge of Exception Handling
- Proficient in JDBC

ADVANCED JAVA SKILLS

- Skilled in Servlets and JSP.
- Experienced with Hibernate and Spring (including Spring Boot).

SQL SKILLS

- Solid understanding of RDBMS & DBMS concepts
- Proficient in Data Types and Constraints
- Skilled in writing Queries, including Joins (inner joins) and Sub Queries
- Knowledgeable in DML, DQL, TCL, and DCL

FRONT-END

- Proficient in HTML, CSS, JavaScript, and React.

PROJECTS

Employee Management System
[GitHub Link](#)

- Developed a system to manage employee data, including CRUD operations.

Multi-Step Form
[GitHub Link](#) | [Live Site](#)

- Created a multi-step form application to handle user input across multiple stages.

EDUCATION

- **B.Tech in Computer Science**
  Delhi Institute of Engineering & Technology
  Graduated: June 2023
- **12th Intermediate**
  CAB Inter College, Meerut
  Completed: June 2019
- **10th High School**
  CAB Inter College, Meerut
  Completed: June 2017
